## Trinity College, Hartford.

---

TRINITY COLLEGE recognizes the Christian religion as the true basis of a right education.

Her first care is, therefore, to provide for the instruction and training of her students in the knowledge, the faith, and the practice of Christianity. By reference to the prescribed course of study, it will be seen that this work constitutes an integral and continuous portion of her system of instruction.

Her next care is to provide for what is regarded as the special and appropriate business of a College Education, a thorough Classical and Mathematical discipline, together with a right apprehension and a practical mastery of the English Language and Literature.

Full courses of Instruction are also given in the principal Modern Languages—so useful in business and society, so rich in literary treasures, and so conducive to the expansion and cultivation of the mind;—while a liberal share of attention is appropriated to the leading departments of positive and practical knowledge; History, Taste and Criticism; Law, Philosophy, Science and Art.

Thus the College aims to make her students good Christians, good scholars, good citizens and good men.

Trinity College is a College of the Episcopal Church; but she welcomes to her bosom students of other Christian denominations. She respects their faith and their

feelings, and, while her own religious instruction, imparted in the spirit and under the forms of the Church, is simply and positively Christian, she allows all her students to attend Public Worship where their parents may desire, and to enjoy the spiritual guidance of their own religious teachers.

Trinity College is not a Theological Institution, nor does it even comprehend any Theological department, but is simply, a proper Christian College. Its name is designed to attest forever the faith of its founders, and their zeal for the perpetual glory and honor of the ONE HOLY AND UNDIVIDED TRINITY.

To this brief statement must be added some account of the internal organization and condition of the College.

The SENATUS ACADEMICUS consists of two houses, known as the CORPORATION and the HOUSE OF CONVOCATION.

The CORPORATION, on which the other house is wholly dependent, and to which, by law, belongs the supreme control of the college, consists of not more than twenty-four trustees, resident within the State of Connecticut; the Chancellor and President of the College being *ex officiis* members, and the Chancellor being *ex officio* President of the same. They have authority to fill their own vacancies; to appoint to offices and professorships; to direct and manage the funds for the good of the College; and in general, to exercise the powers of a Collegiate Society, according to the provisions of the charter.

The HOUSE OF CONVOCATION consists of the Fellows and Professors of Trinity College, with all persons who have received any academic degree whatever in the same, except such as may lawfully be deprived of their privileges.

Its business is such as may from time to time be delegated by the Corporation, from which it derives its existence; and is, at present, limited to consulting and advising for the good of the College; nominating the Junior Fellows, and all candidates for admission *ad eundem*; making laws for its own regulation; proposing plans, measures or counsel to the Corporation; and to instituting, endowing and naming, with concurrence of the same, professorships, scholarships, prizes, medals, and the like.

The CHANCELLOR is the Bishop of the Diocese of Connecticut, and is also the Visitor of the College.

The PRESIDENT. This officer, as his title imports, is the resident head and Rector of the College, and with the PROCTORS, who are the two senior Professors, the Executive of all laws for the discipline of undergraduates.

The FELLOWS. There are six Fellows appointed by the Corporation alone; and six Junior Fellows, who must be Masters of Arts, appointed by the Corporation on nomination of Convocation; and these together make the Board of Fellows. To this Board the Corporation commits the superintendence of the strictly academical business of the College; of the course of study and examinations; of the College laws; of collegiate dress, and the like; and also certain powers and privileges in recommending for degrees. Each Fellow and Junior Fellow is elected for three years; but there is no emolument connected with the office, besides a

provision for necessary expenses incurred in its discharge. The Fellows, therefore, under existing laws, are not ordinarily resident.

The DEAN OF CONVOCATION presides in that House, and is elected by the same biennially.

The PROFESSORS hold their appointments from the Corporation, and by lectures and otherwise, instruct in their several departments. With the President and Tutors, they also form a board of government and control over the under-graduates.

TUTORS and LECTURERS are appointed from time to time by the Corporation, to assist the Professors in the several departments of instruction. Private Tutors have no recognized character as officers of the College.

SCHOLARSHIPS. These are permanent endowments, held by certain under-graduates according to the terms of their foundation, and paying stipends of different amounts to their incumbents.

HALLS. There are three buildings belonging to the College, which, in 1845, received the names of the first three Bishops of the Diocese. SEABURY HALL, erected in 1825, contains the Chapel and the Library, Cabinet, and other public chambers. JARVIS HALL, erected in the same year, and BROWNELL HALL, erected in 1845, contain rooms for the officers and students; and a wing of each is the residence of a professor and his family.

The GROUNDS, on which the Halls are erected, are an area of fourteen acres, laid out with walks, and ornamented with shade-trees and shrubbery. The site is elevated, overlooking on one side the city of Hartford, within the limits of which the grounds are situated, and on the other the Little River, (a branch of the Connecticut,) which forms their western bound-

ary. The river is suitable for boating and for exercise in swimming.

THE LIBRARY, CABINET AND APPARATUS. There are about six thousand volumes in the Library in Seabury Hall; in which are also the portraits of several officers and benefactors of the College. Two Funds have been recently established for the increase of the Library; *the Elton Fund* of 5,000 dollars, the gift of John P. Elton, Esq., of Waterbury; and *the Sheffield Fund*, consisting of 5,000 dollars in the stock of the New Haven and Northampton Railroad Company, the gift of Joseph E. Sheffield, Esq., of New Haven. There are two libraries belonging to the societies of under-graduates, containing an aggregate of six thousand volumes. The *cabinet* is an extensive collection of minerals and geological specimens, to which has lately been added an extensive collection of shells. A valuable *philosophical apparatus* is distributed through the lecture rooms of the several Professors requiring its aid in their instructions. The Chemical Department has just been thoroughly reorganized, the Laboratory remodelled, and the apparatus greatly enlarged by extensive purchases in Europe.

TERMS. There are three terms in the year, of from twelve to fourteen weeks each; during which every under-graduate is required to be resident, unless under special dispensation from the President.

EXAMINATIONS. These are held at the end of each term, in presence of examiners appointed by the Fellows, from their own number or otherwise; and every under-graduate is required to be present and sustain his prescribed examinations at such times, unless a special examination is allowed for sufficient causes.

VACATIONS. The Christmas vacation is two weeks from the Thursday preceding Christmas day. The

Easter vacation is three weeks from the close of Lent term. The Midsummer vacation is eight weeks from Commencement day. . .

EXHIBITIONS. Junior exhibition occurs at the close of Lent term; exhibitions of the literary societies, at such times as are deemed most convenient.

COMMENCEMENT. The third Thursday in July is Commencement day. On the day preceding, the Corporation and House of Convocation assemble, and an address and poem are publicly pronounced before the latter. On this day all applications for admissions *ad eundem* come before Convocation; and the annual elections of Fellows and Junior Fellows are usually held on this day, or on the morning following. On Commencement day, candidates for degrees perform appointed exercises in public; and all degrees are conferred and announced with prescribed forms.

DEGREES. The corporation is authorized by its charter to confer degrees in the arts, and in the faculties of Law, Medicine and Divinity. Nominations for degrees may come from the Fellows and Professors, or from the House of Convocation; but the candidates are admitted only by vote of the Corporation, and all degrees are publicly conferred in its name, by the President.

Degrees in the faculties of Divinity and Law are conferred, at present, either in course, *honoris causâ*, or on admission *ad eundem*. For the degree of Bachelor of Arts, the candidate must have sustained all his examinations, and paid all fees and charges; and must be nominated to the Corporation by the Fellows and the Faculty of Arts. To proceed Master of Arts, a like nomination is requisite at a period of not less than three years after commencing Bachelor. Masters may proceed Bachelors in either of the Faculties, at the end

of seven years, upon the certificate of the Board of Fellows, grounded on examination and the recommendation of the Chancellor and the President of the College. Bachelors in either of the Faculties may proceed Doctors in the same, at the expiration of three years, on the recommendation of the Chancellor, accompanied with a certificate of examiners, and a satisfactory *thesis* composed by the candidate. Degrees *honoris causâ* appertain to the Corporation only.

*Applications for degrees in course are required, by statute, to be made to the President of the College, during Lent Term. They cannot be received after the Senior Examination in Trinity Term.*

### REQUIREMENTS FOR ADMISSION.

CANDIDATES for admission to the Freshman Class will be examined in the following studies.

Elements of Ancient History and Geography, Arithmetic, Algebra to Quadratic Equations, and two Books in Plane Geometry.

Latin Grammar, the structure and scanning of Hexameter Verse, twelve chapters in Arnold's Prose Composition, Sallust, Cicero's Select Orations, the Eclogues of Virgil, one Book of the Georgics, and six Books of the *Æneid*.

Greek Grammar and writing Greek with the accents, Jacob's, Colton's, or Felton's Greek Reader entire, and St. John's Gospel.

The Latin Grammar of Andrews and Stoddard, the Greek Grammar of Sophocles, and Arnold's First Greek Book are recommended as Elementary Books.

Instead of any of the text books above enumerated, others equivalent will be received. The Examination in Latin and Greek will have especial reference to the Grammars of the two languages, an accurate knowledge of which is considered indispensable.

Candidates for an advanced standing, must sustain a further examination on those studies which have been read by the class they propose to enter.

No student can be admitted to the Freshman Class before he has completed his fifteenth year.

All candidates for admission must present satisfactory testimonials of good moral character; and those who are from other Colleges must produce certificates of dismission in good standing.

THE Department of Natural Science is not restricted to the Under-Graduates, and University Students, but is open to all persons who desire to pursue any of the Branches of Science that are included in it. The Laboratory has been recently remodelled, and equipped with a complete set of Apparatus for Analytical as well as General Chemistry. The Cabinet has also been greatly enlarged, and is designed to be made as complete as possible. Geology is taught mainly in the Field, with special reference to the Formations of the Valley of the Connecticut.

The Text-Books and the Books of reference are as follows:

GEOLOGY. De la Beche's Geological Observer.

Lyell's Principles.

Lyell's Elements, Text-Book.

#### UNIVERSITY STUDENTS.

Provision has been made in the College Statutes, that those students who desire to omit certain of the studies prescribed for the degree of Bachelor of Arts, may be permitted to recite with the regular classes, in such studies as, upon examination, they shall be found qualified to pursue. They are expected to attend at least three recitations or lectures daily. They are subject to the same rules and enjoy the same privileges as the regular students; and, on leaving, are entitled to a certificate from the President, stating the time they were members of College, and the studies pursued during that time.

In certain cases, the degree of Bachelor of Science may be conferred.

## GOVERNMENT AND DISCIPLINE.

The Government is administered by the President and Professors. It is designed to be mild and paternal—appealing to the better feelings of the heart, and aiming to prevent, rather than punish misconduct. Punishments involving public disgrace are resorted to with reluctance. If a student does not conduct himself to the satisfaction of the Faculty, his parent or guardian will be promptly informed of it, and if it is judged necessary, requested to remove him from the Institution. In cases where dispatch is important, the delinquent will be privately dismissed.

An accurate daily account of the proficiencies of every student, and also of his delinquencies,—if any occur,—is kept; an abstract of which is transmitted to his parent or guardian at the close of each term.

## PUBLIC WORSHIP.

Prayers are attended every morning and evening in the College Chapel, when all the students are required to be present. They are also required to attend public worship on the Lord's Day, either in the Chapel, or at such places as their parents or guardians may desire.

## EXPENSES.

For tuition, \$13 per term; for room rent, \$4.50 per term; for the use of the Library, for sweeping rooms, ringing the bell, fuel for recitation rooms, and printing, \$4 per term; all payable in advance. Besides the above, there will be occasional assessments for damages, extra printing, or other common expenses.

Students admitted to an advanced standing, unless from other Colleges, are required to pay \$10 for each

year of such advancement; and, for a shorter time than one year, in proportion.

The students reside in the College, and provide for themselves bed and bedding, furniture for their rooms, fuel, candles, stationery and washing. Books and furniture may be sold, when the student has no further use for them, at a moderate reduction from the original cost.

No Commons are established, as it is preferred that the students should board in private families, in the neighborhood of the College. Good board can now be procured for from \$2.00 to \$3.00 per week.

Provision has been made, by special benefactions, for remitting their tuition to all indigent students who are communicants in the Protestant Episcopal Church. The necessary College expenses of such, exclusive of personal expenses, for clothing, fuel, furniture, &c., are as follows:

Board, . . . . .	\$100.00 per year.
Room rent, . . . . .	13.50 . . . . .
Use of Library, Attendance, Printing, &c., . . . . .	12.00
Assessment for public damage, &c., . . . . .	4.50
<hr/>	
Total, . . . . .	\$130.00

To prevent extravagant or improper expenditures, it is recommended that all funds designed for the use of students should be placed in the hands of the College Bursar, who superintends their expenses with a parental discretion. The present Bursar is A. JACKSON, M. A., Professor of Moral and Intellectual Philosophy.

## Athenaeum Collegii S. S. Trinitatis.

---

THIS Society was organized in the year following the foundation of the College.

The Constitution was framed by a committee consisting of the Rt. Rev. Bishop Brownell, Professor G. W. Doane, (now Bishop of New Jersey,) and others.

At the weekly meetings each member takes part in the exercises, consisting of Declamation, Composition and Extemporaneous Debate.

The Library, which is constantly increasing, contains at present about four thousand volumes, and is rich in the Classics, works on Theology, Law, Poetry, Belles Lettres, and the Standard Literature of the day.

The officers for the present (Lent) term, are

*President*, E. J. PURDY. *Vice-President*, J. HUGG. *Censor*, G. S. MALLORY. *1st Councillor*, O. K. GORDON. *2d Councillor*, H. K. LEAVER. *Secretary*, G. R. HALLAM. *Librarian*, J. A. BOUGHTON. *Treasurer*, WILLIAM R. HARRIS. *Standing Committee*, A. S. DARRELL, W. T. MADDOX, D. B. WALKER.

Catalogues containing the names of Graduate and Honorary members, together with a history of the Society, and a classification of the books in the Library, may be obtained by addressing the Librarian.

# The Parthenon.

---

THIS Society was formed in 1827, by nineteen members from the Athenaeum; among whom were Park Benjamin, Esq., and the Rev. Caleb S. Ives, late Missionary to Texas.

From the time of its foundation the Society has steadily advanced, both in numbers and in spirit. In the Weekly Meetings all Members take part in the Exercises, which consist of Orations, Declamations, Compositions, Forensic Discussions and Extemporaneous Debates. The Library now contains upwards of two thousand and eight hundred volumes, and is also supplied with the leading Reviews and Periodicals of the day.

Public Exhibitions are occasionally held, which have reflected credit upon the Society, and have served to stimulate the members to renewed exertions.

Upon the whole the Parthenon was never in a more flourishing condition than at present; her Sons aiming more and more to *realize* their motto—

“POSSUNT QUIA POSSE VIDENTUR.”
